

Robert Mullane IT Services and Sales

"For computer equipment and support – Bob's your uncle"

2nd November 2010

To whom it may concern,

I recently engaged the services of Billy Phelan. Billy did a full financial review and advised me on some changes I could make to my savings and pension plans.

These changes meant that I now get a better return on my savings and I can look forward to a bigger pension.

Billy has a great knowledge of the available financial products and was very efficient in dealing with the associated cumbersome paperwork.

I would highly recommend Billy's service for any financial requirements you may have.

Yours sincerely,

Robert Mullane
